

## Compass Church Facebook Group

---

### What is Facebook?

Facebook is a social website that connects people with mutual friends and interests. Our official Compass Church Group is designed to promote community among regular Compass attendees. Whether you are a longtime user or new to this application, Facebook is a great way to interact with others in our church family.

### How do I get started?

The first step is to create your own Facebook account ( [www.facebook.com](http://www.facebook.com) ). This is free and easy to do. Facebook requires a valid e-mail address in order to register. Once you have registered, you can join the Compass Church Group and invite other friends to do the same. Just type: "Compass Church Byron Center" into the search tab on your facebook profile.

### What can I post?

This group is monitored regularly, and we ask that all participants observe our Facebook guidelines. Inappropriate content, language, or negative critiques (whether personal or general) will not be tolerated. The Compass Church group is also not the proper format for people to promote their business or political agendas or to promote or raise funds for special causes.

### Need to contact us?

If you need to report a concern, please e-mail us at [info@compasschurchonline.org](mailto:info@compasschurchonline.org).
